

Ameer Hamza Zafar

.NET Full Stack Web Developer

hamzameerzafar@gmail.com +92-336-5414400

SUMMARY

Reliable, energetic, and resourceful .NET Developer with 7+ years of experience in creating and executing innovative software solutions to enhance business productivity, knowledge of the Solution Manager Implementation Methodology, and strong knowledge in all aspects of the software development lifecycle. Consistently Recognized as a hands-on and competent developer, skilled at coordinating cross-functional teams in a fast-paced, deadline-driven environment to steer timely project completion within budgetary constraints. Ability to work independently and in a team.

EXPERIENCE

Senior Software Engineer (Remote)

2022-11 - Present

URemit International

- Managed servers, IIS configurations, and deployments.
- Provided support to global customers, ensuring timely issue resolution.
- Upgraded and updated .NET Core projects from version 3.1 to the latest version for compatibility and performance improvements.
- Upgraded Angular projects to the latest versions, ensuring improved performance.
- Developed a C# desktop application to automate database backups and transfer to FTPS servers, ensuring secure data storage.
- Led a development team by assigning tasks, reviewing progress, and ensuring deadlines were met.
- Conducted R&D to implement new technologies and tools.
- Optimized application performance and enhanced user experience.
- Developed and maintained RESTful APIs for front-end integration.
- Integrated third-party services and APIs to extend functionality.
- Refactored codebases to improve readability, maintainability, and performance.
- Worked on databases including stored procedures, replications, and full-text search.
- Developed complex SQL queries and optimized database schema design.
- Implemented security best practices to protect applications from vulnerabilities.

.NET Full Stack Developer

2019-02 - 2022-10

QSOL, Rawalpindi

- Developed full-stack applications using various versions of .NET, handling both front-end and back-end tasks.
- Created and managed dashboards and web portals to display data and insights.
- Designed and implemented APIs integration between different systems and services.
- Utilized Highcharts to create interactive and visually appealing charts and graphs.
- Developed and maintained databases, including schema design, queries, and stored procedures.
- Integrated third-party API services based on provided documentation to extend application functionality.
- Troubleshoot and resolved issues in applications to ensure smooth performance and user satisfaction.
- Collaborated with cross-functional teams to gather requirements and ensure project alignment with business goals.
- Applied best practices in coding, testing, and deployment to deliver high-quality solutions.
- Contributed to documentation and training materials to support ongoing development and maintenance.

.Net/Desktop Developer

2017-03 - 2020-01

Core Infinite, Wah Cantt

- Developed and maintained desktop applications using .NET technologies.
- Utilized WPF and WinForms for developing rich client applications.
- Utilized Telerik controls to enhance the functionality and user experience of desktop applications.
- Created and optimized SQL Server databases to support application functionality.
- Conducted thorough testing and debugging to ensure reliability and performance.
- Developed custom controls and components to extend application functionality.
- Provided support and troubleshooting for existing applications to resolve issues and enhance performance.
- Collaborated with the QA team to identify and resolve bugs and issues.
- Automated repetitive tasks and processes to improve efficiency and productivity.

.Net Trainee

2017-02 - 2017-04

Inductin, Islamabad

- Gained hands-on experience with .NET MVC, learning the framework and its applications.
- Developed basic web applications using .NET MVC, applying foundational concepts and practices.
- Worked on database operations, including writing SQL queries and managing database connections.
- Developed basic web interfaces using HTML, CSS, and JavaScript.

IcodeDigita

- Gained hands-on experience with WordPress, focusing on learning the platform and its capabilities.
- Learned to customize themes and plugins to meet specific project requirements.
- Gained knowledge in using HTML, CSS, and PHP for WordPress customization.
- Created and managed WordPress content, including posts, pages, and media.
- Documented processes and tasks to support development and maintenance activities.

EDUCATION

Bachelor's Degree in Computer Science

2019

*COMSATS University Islamabad, Wah Campus.***SKILLS**

C++

Ajax

C#

HTML

VB.NET

CSS

Typescript

LINQ

JavaScript

Entity Framework

jQuery

Dapper

JSON

ADO.Net
